

2026 m. kovo 16-20 d. Erasmus+ projekto dalyvės iš lopšelio-darželio „Dobilas“ – dalyvavo kvalifikacijos tobulinimo kursuose „Digital Tools for Environmental Education & Sustainability“ Barselonoje.

Kursų metu mokytojos susipažino ir dalinosi patirtimi, pristatė savo mokyklas, dalyvavo susipažinimo veiklose, išbandė įvairius skaitmeninius įrankius (mokėsi, kaip juos taikyti kuriant įdomias ir interaktyvias veiklas apie aplinkosaugą), gilinosi į darnaus vystymosi tikslus (SDGs) bei integravimą į jų procesą.

Dalyvavo praktinėse veiklose gamtoje ir susipažino su gamtos objektų atpažinimo programėlėmis. Aptarė iššūkius ir sprendimus kaip integruoti skaitmeninius įrankius ir SGSs grupėje.

Įgytos žinios ir idėjos bus pritaikytos kasdienėje ugdymo veikloje, siekiant ugdyti vaikų sąmoningumą ir atsakomybę už tvarią aplinką.

MONDAY 09:30-14:30	TUESDAY 09:30-14:30	WEDNESDAY 09:30-14:30	THURSDAY 09:30-14:30	FRIDAY 09:30-14:30
Welcome introductions Course Info	Exploring a diverse range of digital tools, mobile applications, and online platforms that support environmental education	Outdoor Activity: Visit to the Ciutadella Parc	The power of social media in environmental movements: Strategies for effective digital environmental advocacy	Designing a digital strategy for environmental education: Identifying target audiences and goals
Ice Breaking Activities School Presentations	Digital tools for climate modeling and simulations	Discovering nature recognition apps and tools for promoting sustainability	Identifying digital solutions for specific SDGs related to environment, climate action, and biodiversity preservation.	Addressing potential barriers and challenges when integrating digital tools, environmental education, and SDGs in the classroom.
Break	Break	Break	Break	Break
Introduction to Sustainable Development Goals (SDGs) and their relevance to education and environmental sustainability.	Hands-on workshop: Practical session on using digital tools to create engaging and interactive lessons on environmental topics	Digital Storytelling: Tools for creating impactful environmental narratives	Collaborative session to develop technology-driven projects for sustainable development in the local context.	Course wrap-up: final thoughts, and action plans for implementation. Certification of Attendance Confirmation of Erasmus+ Mobility documents

Important: To fully participate in the course, participants **might be kindly requested to bring their personal laptops**. These laptops will be essential for hands-on activities, accessing online resources, and exploring various ICT tools and applications throughout the training sessions. **Please note:** The specific activities, duration, and order of topics can be adjusted based on the trainers' expertise and the needs of the participants. This program provides a general outline for a comprehensive 5-day training course on **"DIGITAL TOOLS FOR ENVIRONMENTAL EDUCATION & SUSTAINABILITY."**
